

Company Name: Cambridge Rapid

Company Address: 10-11 Boundary Road, Haverhill, Suffolk CB9 7YH

OUR NATIONAL MANUFACTURING DAY

Overview: Cambridge Rapid manufacture high quality sheet metal work in a variety of materials. Lasercutting, punching, folding, welding and assembly take place on site with full offline programming facilities. We have the full range of production services from design and prototyping to high volume production.

How we will be involved with National Manufacturing Day:

On NMD 2022 we will open our doors to local school children. We will be giving them a tour of our factory and have demonstrations of machinery. They will be able to see the variety of jobs within an engineering company and we will also offer advice of apprenticeships and careers within the industry.

Date & Time: Thursday 07 July 2022 | (Times to be confirmed)
