OUR NATIONAL MANUFACTURING DAY

Overview: You'll find us in the air, on the ground, on the surface and in the depths of the oceans, orbiting the earth and cyberspace too. Our solutions cover defence, security, transport, aerospace and space in the UK. The organisations that look after the UK rely on us. From the Four Lines Modernisation programme for Transport for London to situational awareness sensors and systems for the Royal Navy, we deliver extraordinary solutions to meet the complex needs of our country's civil and defence markets.
